

TRAINING ACTIVITIES

Training activities aim at:

- strengthening national capacity in formulating effective food security policies; and
- improving the quality and availability of food security information used for policy making.

Training activities cover the following areas:

- Nutrition
- Food Security Statistics
- Crop Forecasting
- Reporting Food Security Information
- The Global Information and Early Warning System (GIEWS) Workstation
- CountrySTAT
- and more...

ABOUT THE EC-FAO PROGRAMME

The EC-FAO Food Security Information for Action Programme aims at enhancing national capacity to generate, manage, and use food security information from different sectors for more effective policies and programmes.

It operates in 20 countries subject to chronic food insecurity, protracted crises or undergoing rapid economic transformation.
